

# From 3D orientation to Splints design

**NemoFAB**  
A BIOTECH DENTAL BRAND  
Orthognathic Surgery Software

# What is NemoFAB?

NemoFAB is a leading solution used worldwide by Orthognathic surgeons designed by opinion leader Dr. Arnett.

**NemoFAB**  
A BIOTECH DENTAL BRAND

*"NemoFAB software is an incredibly comprehensive tool for diagnosis and treatment planning for facial, airway and bite corrections. A treatment planning based on more than 40 years of experience in orthognathic surgery".*

*Dr William Arnett*

## What is this software for?

**NemoFAB** allows total control throughout the diagnosis and treatment process, optimizing times and improving communication with the patient. It enables surgeons to:

### Complete diagnosis

- ATM analysis.
- Airway Analysis. Tomographic diagnostic evaluation of Sleep Apnea.
- Virtual X-rays. Side, Front and Panoramic
- Semiautomatic Models Alignment and Orientation
- Cranial and mandibular automatic segmentation
- Segmentation of fossae and condyles

### Complete treatment with 2D and 3D Cephalometry

- The perfect complement to the 3D planning of setups.
- 3D and 2D photographic overlay.
- 2D and 3D morphing.

### Use of the virtual articulator

- Dynamic analysis of occlusion.
- Planning in the maxillo-mandibular relationship you want.
- Dynamic displays of movement in real time.
- Display options: distance calculation.
- Prediction and simulation of maxillary and mandibular interferences.

### Clinical forms

- FABForms: Medical history, Patient motivation, Dental exam, ...

# Why choose NemoFAB?

Choosing NemoFAB is choosing the differentiation and excellence offered by the digital surgery of our age. A cutting-edge technology that helps the surgeon to design surgical treatments with the highest quality and results.

## Added value

✓ Full control during the planning process diagnosis and treatment

✓ Reduced times in diagnosis and planning

✓ Design of the surgical splint in less time

✓ Proven methodologies

✓ The surgeon can spend as much time as necessary in the diagnostic and treatment planning stages

## Advantages

✓ 2D and 3D surgical treatment plans

✓ Ultrafast 3D render for real-time viewing

✓ 3D photo integration

✓ Use of Dr. Arnett's surgical protocol

✓ Case planning Face, Smile, Ortho and Implant

✓ Diagnosis of facially guided treatments

# The NemoFAB Process

# Suite NemoStudio

All In One

## UNIQUE

Platform that includes all the specialities in dentistry.

## OPEN

The suite is open-source and can be easily integrated with any clinical devices.

## SERVICE FIRST

After-sales support and training.

**NemoStudio is the unique multidisciplinary digital platform for dentistry open and flexible worldwide**
